

Write a regular expression to search digits inside a string.

```
#Write a regular expression to search digits inside a string.  
  
import re  
  
s='0412Karnpal2001'  
  
D=r'\d+'  
digit=re.findall(D,s)  
print("Digits which are in string {s}:",digit)
```

✓ 0.0s

• Digits which are in string {s}: ['0412', '2001']
